A Box in the Garage (A2 · English A2)

Tekst / Transcript

Mia: Sam, look at this old box in the garage.

Sam: What is inside? It is very heavy.

Mia: It contains old phones and cables.

Sam: My father kept everything. He never threw things away.

Mia: We should recycle them. The shop in town takes them.

Sam: Good idea. They are electronic things, not normal rubbish.

Mia: Yes, and some of them still work.

Sam: This one has a cable for electricity.

Mia: Then plug it in. Let us try.

Sam: Wait, the electric in the garage is off.

Mia: I will turn it on. One moment, please.

Sam: Okay, the light is on now. Try the phone.

Mia: The screen shows a big red error.

Sam: That is a pity. It is really broken.

Mia: Maybe the old data is still inside it.

Sam: Photos and numbers from ten years ago?

Mia: Yes, that would be nice to see.

Sam: We can connect the phone to my computer later.

Mia: Perfect. I want to see the old pictures.

Sam: Then I can download the photos and save them.

Mia: Please make double copies. I do not want to lose them.

Sam: Of course. Everything is digital now, so it is easy.

Mia: Good. Let us close the box and go inside.
