A Question in the Museum (A2 · English A2)

Tekst / Transcript

Sara: Look at this old house, Ben. It is beautiful.

Ben: Yes, the architecture here is very old. I love these windows.

Sara: My uncle is an architect. He draws houses like this one.

Ben: That sounds like a great job. Does he work in the city?

Sara: Yes, in a small office. He works with two other people.

Ben: My sister works at the university. She is a researcher.

Sara: Really? What does she study?

Ben: She does research about clean water. She loves it.

Sara: Does she work in a lab?

Ben: Yes, every day. Last week she did a new experiment with river water.

Sara: And what happened?

Ben: She wants to discover a better way to clean it. It takes time.

Sara: I hope she makes a big discovery one day.

Ben: Me too. First she must analyze all her numbers.

Sara: That sounds slow but interesting.

Ben: It is. She also enjoys teaching young students.

Sara: Is she a good instructor?

Ben: Very good. Her students always understand her instructions.

Sara: My teachers are not always so clear!

Ben: Mine too. Come, let's see the next room now.
