Plans for the New Garden (A2 · English A2)

Tekst / Transcript

Lena: Good morning, Peter. Did you read the newspaper today?

Peter: Not yet. Is there something important?

Lena: Yes! The government wants to build a big park next to the river. They will start in June.

Peter: That is good news. Our street has no green space at all. My children play on the pavement.

Lena: I know. And the number of cars here is going to increase next year, because of the new office building.

Peter: Then a park is even more necessary. Cars have a bad effect on the air, especially in summer.

Lena: Exactly. The newspaper says the park will have trees, a playground and a small café.

Peter: I like that. My daughter wants to develop her football skills, so she needs more space.

Lena: There will be a football field too. Maybe your daughter will succeed in a big team one day.

Peter: Who knows! She practises every afternoon, so she has a good chance.

Lena: My brother was a successful swimmer when he was young. He still swims three times a week.

Peter: That is nice. Sport keeps people healthy and happy.

Lena: By the way, do you know a good garden shop? I want plants for my balcony.

Peter: Yes, I recommend the little shop behind the station. The prices are low and the people are friendly.

Lena: Perfect. I will go there on Saturday morning.

Peter: Take the bus, because parking is difficult there. Or you can walk with me; I go every month.

Lena: Let's do that together. Will you stay in the city this summer, or do you travel?

Peter: We will stay here in July and go to the mountains in August.

Lena: Then you can see the new park before us. We are visiting my own parents in Poland.

Peter: Have a good trip. And bring some photos back!

Lena: Of course. See you on Saturday, Peter.
